ErgoCanada Product Mosaic

Canada's best source for ergonomic products and accessories, from innovative input devices to practical workstation solutions. We stock the most comprehensive range of ergonomic products and have the most experienced product specialists in Canada.

Many keyboards force a non-neutral posture on the hand and wrist which causes stress and discomfort. This strain over time can lead to the emergence of repetitive strain injuries (RSI).

Your Canadian Source For: **KEYBOARDS**

We offer a wide range of keyboards which can improve the ergonomics of your workstation including:

Adjustable Tent / Split / Splay
Alternative Layout / Orientation
Combo Keyboards (with mouse)
Compact and Mini

Large / Small Key · Left Handed
One-Handed · Separated · Fixed Split · Vertical

Using most standard mice often requires a constant gripping force. The action of repeatedly clicking buttons can lead to trigger finger. Moving and using the mouse outside of your comfort zone can lead to awkward posture. All these factors increase the risk of RSI.

Your Canadian Source For: **POINTING DEVICES**

A variety of alternatives to traditional mice which may provide a more optimal interface are available:

Alternative Mice · Central Pointing Devices · Clicking Accessories
Contoured Mice · Hands Free Mice · Left Handed Mice
Touchpads · Trackballs · Vertical Mice · Wireless Mice
